## EXPERIENCE

### Legacy Effects

**Modeling Intern** - July 2016 - September 2016

- Assisted with modeling and prepping digital assets for 3D printing and fabrication to be used for sci fi costumes using Maya, Zbrush, and Materialise Magics.
- Responsible for redesigning various hard surface elements for sci fi costumes.
- Tasked with creating parts breakdown sheets to facilitate organization between digital and fabrication departments.

### Garb Athletics

**Designer/Illustrator** - January 2014 - July 2014

- Design custom sports uniforms for football, hockey, and baseball teams on a variety of levels including youth leagues, high schools, small colleges, and club teams.
- Illustrate uniforms based on existing contemporary styles for the company catalogue.
- Create uniform designs in Photoshop primarily by using masks and adjustment layers on photo templates.

### Convergence Athletics

**Graphic Design Consultant** - May 2014 - July 2014

- Produced ideation sketches for the company logo and worked with the founder to refine and hone in on a final design.
- Produced finalized design and vector art using Illustrator.

### Zephyr Education Foundation

**Lead Artist**, freelance basis 2011-2014

- Produced ideation sketches, final design and vector art for the Foundation's logo.
- Worked with the director to design a wireframe for the Foundation's website and built it using the Wordpress interface.

**Deckhand/Assistant to the Director**, freelance basis 2011-2014

- Assisted with oceanographic and marine biological data collection and on-board experiments during educational cruises catered for middle school and high school students.
- Assisted the captain with docking/piloting and performed general on-deck procedures.
- Performed minor vessel maintenance after returning to dock.
